## YOUR LEGAL CHECKUP

Have you considered your legal health?

Every year many visit their doctor for a medical checkup to stay healthy. But have you ever thought about your legal health?

Below are some areas that you need to examine to ensure that your legal health is in good shape.

### WILL

When was the last time you had your Will done?

If you do not have one, or if your Will is over seven years old, why not have one of our lawyers help you.

Do not leave anything to chance, take action and protect your family and loved ones today.

### ENDURING POWER OF ATTORNEY

Do you and or your partner have an enduring Power of Attorney?

A power of attorney gives certainty to your wishes in the event you are not able to make important decisions related to either your health or financial circumstances.

Don't leave your financial and medical decisions to chance, have one of our lawyers draft your Power of Attorney to give assurance to your wishes and to put your family at ease.

### BINDING DEATH BENEFIT NOMINATION

When was the last time you updated your Binding Death Benefit Nomination?

If you have superannuation, you should update your binding death benefit nomination. If you last updated your binding death nomination over three years ago, chances are it has expired. A binding nomination leaves your super fund trustee with no choice as to who gets your death benefit. You choose whether the money goes to one or more dependents or your legal personal representative, who must pay out the money according to your wishes.

### BINDING FINANCIAL AGREEMENT

Have you considered a Binding Financial Agreement?

Whether you are starting a relationship, in one or concluding it, a Financial Agreement can help you, and your significant other minimise future conflict by providing certainty on the ownership and potential division of your assets. A financial agreement is a great wealth preservation strategy. It is one that can save you thousands of dollars and prevent unnecessary court proceedings.
